Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, LOW FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS in cases of the most opposite character, from incontinental SPASMODIC ROBYRS and ANTISPASMODIC remedy CHLORODYNE, discovered by Dr. Collis Browne, M.R.C.S., Licentiate of the Royal College of Physicians, London, and Physician Extraordinary to H.M. the Emperor of Russia, &c. &c. Sold by J. T. Davenport, 33 Great Russell Street, Bloomsbury, London, W.C., Sole Manufacturer of Chloroform, Chemical Chemist. The medical testimony of civil, hospital, military and naval practitioners proclaims it to be the most wonderful antispasmodic ever known, to soothe the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.
Earl Russell has graciously invested J. T. Davenport with the following stamps:—"Dr. Collis Browne's Chlorodyne. A. M. Comp. Lond. Dispensed Sept. 17, 1864:—" The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be Chlorodyne, and with a small quantity given to me by Dr. Burke I have relieved several. (Signed) Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had appeared in that city, and that the only remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.
Testimony from Professor Taylor, M.D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine:—"I have used it in Consumption, Asthma, Diarrhœa, and other diseases, and am most perfectly satisfied with the results."
Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the humane value of this remedy, that we cannot too forcibly impress its speedy adoption in all cases."
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." We it highly owe my restoration to health after sighteen months severe suffering, and when all other medicines had failed."
CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to use the word, Chlorodyne, and attempted to buy Chlorodyne except in sealed bottles, having the words "Dr. J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle, price 1s. 1½d., 2s. 9d., and 4s. 6d. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d. and 4s. 6d. jy24 lyw

THIS COMPANY OFFERS TO THE public the combined advantage of Perfect Security, Moderate Premiums, and Liberal Participation in Profits.
Moderate Rates of Premiums, with and without Profits, for whole of Life, and for short periods.
Policies declared indisputable on any ground whatever, at the end of five years from their date (provided satisfactory evidence of age has been produced), so that they will not be vitiated by any error or mis-statement in the declaration at the Assured—the only condition being that the Premium (and extra Premium if eligible) be regularly paid when due.
Half Premium System.
Without Debt or Interest.
The special attention of those who may find it inconvenient at first to pay the full Premium, is requested to this scheme. Under it Assurances may be effected at half-rates for five years without any Debt being created, as in the Half Credit System. It offers peculiar advantages to persons of moderate but progressive incomes.

HOTELS AND SALOONS.

CLORIOUS NEWS
—FROM—
LEECH RIVER.
THE GOVERNMENT PROSPECTING party is expected to return with the glad news of very rich and extensive Gold Fields having been found, in view of which the
MOUNT ARARAT HOTEL,
Is pronounced to be the best and most comfortable house on the River, having single and double bedrooms, clothed, plastered and carpeted; a large hall running through the centre, with a large well furnished Parlor on either side for Ladies and Gentlemen.
Feed and Stabling for horses.
The Mount Ararat is the only House fitted up for the accommodation of Ladies. The proprietors, without regard to cost or trouble, have put up a House that is the admiration of all lovers of cleanliness and good eating, and which would not disgrace the great metropolis of Vancouver Island.
The Mount Ararat being elevated seventy-five feet above Kennedy Flat, on the Government Trail leading to the North Forks, it has a great advantage over other houses from the purity of both air and water around it, and the grand and magnificent mountain scenery that can be seen from its door.
The Proprietors would call the attention of miners, merchants and others intending to visit the mines this spring, to this advertisement.
Fresh Milk on hand for Tea and Coffee.

Consulate of the United States of America,
VICTORIA, V. I., April 10, 1864.
The following Orders have been received at this Consulate, and are published for the information of the public.
Any Order rescinding their enforcement will be published as soon as received.
ALLEN FRANCIS,
U. S. Consul.

HEADQUARTERS DEPARTMENT OF PACIFIC, San Francisco, March 14, 1865.
ALLEN FRANCIS, Esq., U. S. Consul, Victoria, V. I.,
SIR,—I enclose herewith copies of my General Orders No. 18, of March 11th inst., which it may be well to have published in Victoria to the end that all persons intending to come from the British Provinces into the United States may obtain Passports, either from you or the authorities of the country to which they belong.
Very respectfully, Sir,
Your most obedt Servant,
IRWIN McDOWELL,
Major General Commanding Department.

HEADQUARTERS DEPARTMENT OF PACIFIC, San Francisco, Cal., March 11, 1865.
GENERAL ORDERS, No. 18.
1. The following measures will be taken to enforce General Orders No. 308, from the War Department, of December 29th, 1864:
All vessels coming into the port of San Francisco from a foreign country, will be boarded by an officer as soon as practicable after their arrival, and no passenger from a foreign country will be allowed to land without a proper passport.
All passengers coming mediately from New York by the Isthmus, or from Oregon by way of Vancouver Island, will not be considered as coming from a foreign country. Masters of steamers plying on those routes will make a separate list of their way passengers, and give it to the inspecting officer as he comes on board.
II. Passengers going hence to Oregon by way of Vancouver Island will not be required to procure passports.
IV. A separate list will be made of passengers coming on board of steamers at Vancouver Island for Oregon, and will be given to the inspecting officer, who will come on board at Cape Disappointment.
By command of Major General McDowell,
C. DRUM,
Assistant Adjutant General.

GENERAL ORDERS, No. 308. } WAR DEPARTMENT, Adjutant General's Office, Washington, Dec. 29, 1864.
PASSPORTS FOR PERSONS COMING FROM FOREIGN COUNTRIES.
The following order of the President, received from the Department of State, is promulgated for the information and government of all officers in the military service whom it may concern:
DEPARTMENT OF STATE, Washington, December 17, 1864.
The President directs that, except immigrant passengers directly entering an American port by sea, henceforth no traveler shall be allowed to enter the United States from a foreign country without a passport. If a citizen, the passport must be from this Department, or from some United States minister or consul abroad; and if an alien, from the competent authority of his own country; the passport to be countersigned by a diplomatic agent or consul of the United States.
This regulation is intended to apply especially to persons proposing to come to the United States from the neighboring British Provinces. In observance will be strictly enforced by all officers, civil military and naval, in the service of the United States, and the State and Municipal authorities of the seconds must be on the lookout for, to the serious injury of the purchasers thereof.

WE HEREBY GIVE NOTICE,

that in order to protect ourselves and the public all goods manufactured by us from and after this date will be marked as follows:

"TUPPER & COMPANY,
MANUFACTURERS,

IMMIGRATION.

In the debate a few days ago on the direct steam communication question, the subject of immigration came up somewhat cursorily, but a sufficient opinion was expressed by the House to show that no assistance should be granted to any steam company that could not afford cheap transit for emigrants from the mother country. In our remarks on the proposition which had been laid before the House we took a similar view, and pointed out the exorbitant character of the terms offered in behalf of the West India Mail Company. The subject, embracing as it does the whole question of immigration, is one that demands more than ordinary attention; for if we are to progress at all, one of the necessities of that progression will be found in the cheapness of travel between the mother country and these shores. Hitherto this important matter, with its thousand and one concomitants, has been totally neglected by both our Legislature and Executive. We seem to have relied on some miraculous power of attraction that could dispense with all extraneous aid. Other countries might labor to fill up their vacant places with population, but we of Vancouver Island needed only to put out our free-port signboard, and the world's wealth and inhabitants would be impelled hither by the sheer force of gravitation. Unfortunately the experiment has proved a failure—the world has not been very much affected one way or other by our existence, nor is there any indication of an immediate change in its rather freezing indifference. The fact is we have been ignoring all the modern experiences. Newcomers, strangers among the commercial and industrial communities, we have comported ourselves as if we were the oldest established and best known firm of them all. Day by day we see in ordinary life the double necessity for industry and attention on the part of those who are commencing their career. The unknown and untried has a reputation to make, and it is only by showing his capacity on every occasion that presents itself, that he is enabled in the course of time to enjoy the public confidence. We are the unknown and the untried, the newly arrived merchant with his wares. Shall we content ourselves with the announcement in almost illegible letters of Vancouver Island & Co., Commission Merchants and land speculators? Or shall we go vigorously to work, advertise well our capabilities, and prove that our capabilities are worth advertising? Shall we employ our energies in sealing up our resources, in limiting our stock of merchandise to a quantity that can, from its meagre and poverty-stricken appearance, only disgust the intending purchaser? or shall we make the very best show of those good things with which nature has in a liberal spirit supplied us? Shall we in fact continue to lock up, or allow to be locked up, the best lands of the colony, so that when the emigrant does come here he may be in the position of the dove when it first emerged from the ark—without a resting place? We hope not. We hope that public opinion will shortly be sufficiently powerful to remedy those abuses which are even now sending intending settlers to Puget Sound, and converting able-bodied and loyal British subjects into citizens of the American Republic. It is humiliating to think that such is the case—it is mortifying to feel that with all our expensive colonial Government and with all our official dignity we are unable to maintain eight thousand people on an Island as large as the half of Scotland. Under such circumstances, when we cannot even retain the population we have, it is rather a serious thing to talk about immigration, and much more serious to speak of plunging the country into heavy expense in order that an addition shall be made to an already surplus population.

Serious as the subject is, however, it is one which must be dealt with. We cannot hope to go on long in our present condition. We must either make the colony an attraction to population, or leave it for more prosperous countries. If the mountain won't come to Mahomet, Mahomet must go to the mountain. We think, however, the mountain can be inspired with the necessary motion. We believe that an intelligent government can make the colony maintain a little more than its present population. We have strong suspicions that our Yankee friends would have had it a State long ago—an industrious, bustling member of the great Federal Union. That it has not progressed with that degree of rapidity and stability which was expected of it, is not certainly owing to any imperfection in the place itself; for in respect to resources, whether we take them according to their intrinsic value, or their diversified character, few countries on the Pacific are more highly favored. Our whole misfortunes, if they are attributable to anything, lie rather at the door of those into whose hands the government of the country has at different times fallen. Their shortsightedness and want of experience—to their indisposition to make other and prosperous new countries their model—is attributable nearly everything that is necessitatory in our present condition. It is no use repining at the past, the future will not be characterized by blunders. We hope that at home, when it shall have [illegible] not find as inviting with the [illegible] and repelling with the [illegible] shall our large landed proprietors, generally [illegible] with that it is populous, [illegible] valuable,—[illegible] forests.

DIED.

Died in this city, on the 6th inst., Mr. Alexander Hamilton, aged 53 years, late of Canada West.

Friends are respectfully invited to attend the funeral this day, at 1½ o'clock, p. m., from his late residence on Fort street, between Quadra and Blanchard streets.

SUDDEN DEATH.—A colored man, named Alexander Hamilton, residing on Fort street, above Quadra, died very suddenly last night between 11 and 12 o'clock. Deceased had been working in his garden till 10 or 11 o'clock, after which he went out to call in a friend, returning about 11 o'clock. After going to bed he got up again at the request of his wife to wind up his watch, but almost immediately sat down in a chair, breathing heavily, blood and froth issuing from his mouth and nostrils. His wife rushed out to a neighbor's for assistance, but when she returned he had fallen from the chair, and in a very few minutes afterwards he died. An inquest was held on the body yesterday at one o'clock, and a verdict of died from natural causes returned, deceased having for some time been afflicted with disease of the heart.

PROSPECTORS FOR NOOTKA SOUND.—A party of five prospectors started last night for Nootka Sound intending to examine the country in that vicinity for gold mines. It consists of Mr. Smith, late Superintendent of Police, leader, Mr. Whittaker, formerly Police clerk, and three others. The party will be absent about six weeks, and will be well armed, although relying chiefly on their leader's knowledge of the Indians and the country. It will be remembered that some three years ago Mr. Smith visited Nootka Sound in H.M.S. Cameleon, and that the natives, fingering his gold watch chain told him they could find plenty similar stuff. We have made arrangements for receiving news from the party, should any opportunity occur for communication with Victoria.

JOHN IN COURT.—The Celestials are becoming litigious, being now among the most frequent attendants at the Police Court. John and the Siwashes can't agree, and the former is sometimes inclined to take the law into his own hands, thereby drawing down on himself the ire of Cadi Pemberton, who inevitably punishes both parties to an assault whenever he can do so. A case occurred yesterday, where an Indian was fined $20 for breaking a Chinaman's window, on which he entered a cross charge for assault, and two of the Chinamen were fined $5 each.

THE STEREOSCOPTICON.—The first exhibition of the Stereoscopticon was given last night. The first part of the programme, consisted of battle scenes, portraits of the principal characters, &c., some of the latter being very life-like. The second part, comprising magnified photographic views of scenery, &c., in various parts of the world, was excellent, the representations conveying a clear and truthful idea of the actual objects. The exhibition opens again to night.

A SKOOKUM SQUAW.—A Red River squaw yclept Isabel, was brought up in the Police Court yesterday for being drunk and disorderly in the streets. The prisoner, a large stout woman, showed the superiority of the inland tribes over the degenerate clam-eaters of this coast by requiring the united aid of four policemen, who even then called on the assistance of the bystanders, to take her to gaol.

ANOTHER EXPLORING EXPEDITION.—We understand that His Excellency has appointed Mr. Buttle, a member of last year's expedition, to the command of another Government exploring party to be sent out shortly to prospect the west coast of the Island.

NEW STEAMER.—The stern-wheel boat now building in Trahey's shipyard for Captain Irving, is being rapidly completed, and will probably be launched next week. Her engines, which have been made by Spratt and Kreimler, are being fitted in the hull on the stocks.

DEATH IN HOSPITAL.—A man named William Green died in the Royal Hospital yesterday, of consumption. Deceased was 39 years of age, and a native of New Brunswick.

SUPERINTENDENT OF SCHOOLS.—Mr. Alfred Weddington yesterday received the official appointment to be Superintendent of Schools for the colony during the present year.

CROPS.—All is quiet and prosperous at this settlement; crops are looking well, and the settlers are pleased with their prospects for a good harvest.

NEW SCHOONER.—A new schooner, named the "Indian Maid," arrived from Nanaimo last night with a cargo of coal.

THE EXPRESS EXPOSED.—The *Correspondance de Rome* contradicts in the following terms the *Owl's* assertion that the Empress Eugenie had written to all the female sovereigns of Europe, without distinction of faith, respecting the restoration of the Holy Places: "This intelligence is inexact, as we learn from other sources, but it suffices to show the confusion which prevails in people's minds. The Empress Eugenie is profoundly attached to a faith, and that faith, as the Pope said some days ago, 'is exclusive, and admits neither of compromise nor of transaction.' There is only one Christianity, and all anti-Catholic sects are mere degenerations incapable of uniting or concurring with the truth to found or restore anything whatever in a suitable manner."

A WORD TO "SMOKERS."—'Tis not our intention to preach a reform against the sociable and growing use of the weed, for it is a luxurious comfort. What gentleman, we ask, old or young, who is addicted to the habit of enjoying himself behind a good Havana, particularly after a hearty meal, will dispute us. We speak from experience, for we often indulge in a good cigar ourselves, but what we suggest is this, try that justly popular, fragrant, convenient and efficacious Dentifrice, SOZODONT, just the thing after smoking; removes instantly the unpleasant tastes and odors attendant on the use of tobacco; his refreshingly agreeable, and leaves the mouth cool and sweet.

All Druggists sell it, price 75 cents per bottle.

LEGISLATIVE COUNCIL.

THURSDAY, June 8th, 1865.

The Council met at 3:30 p.m. Members present—Hons. Chief Justice (presiding), Colonial Secretary, Attorney-General, Treasurer, Surveyor-General, R. Finlayson, and Rhodes.

HARBOR DUES BILL.

This bill came up for a third reading.

The hon. Colonial Secretary moved that the bill be read a third time.

Seconded by the hon. Attorney-General.

Mr. Rhodes opposed the third reading, looking on the bill as imposing import duties and as a direct blow to the free port. The bill was really what it had been characterised outside, obtaining money under false pretences.

The Colonial Secretary said the first part of the bill simply followed the precedent of previous bills. The second part of the schedule was a very great improvement on the old bill. The Government really required the revenue offered by the bill.

Mr. Rhodes pointed out that the tax on vegetables would be a failure, because although the duty on potatoes for instance was $5 per invoice, the importers, by making a mixed invoice with a few cabbages or carrots, could reduce it to $2 50, the charge on these vegetables.

The bill was read a third time.

Contents—Hons. Colonial Secretary, Attorney General, Treasurer, Surveyor-General. Non-contents—Hons. R. Finlayson, H. Rhodes.

STOCK AND CARCASS ACT.

The Colonial Secretary moved that this bill be read a third time.

The hon. Attorney-General seconded.

Mr. Rhodes opposed for the same reason as the last. He said if the bill were carried out in its integrity there would be a tax of $2 on every ham and side of bacon. Suppose pork were imported in barrels there would be a charge of $2 on every piece of pork in the barrel, making about $100 on a barrel.

The Colonial Secretary said the usual meaning of the term carcass was fresh meat, and that he presumed was the intent of the framers of the bill.

The bill was read a third time and passed to the same vote as the preceding.

TRADES LICENSE ACT.

The Council took up this Act, at the clause levying a tax of 2½ per cent. on auctioneers,

Mr. Watson said, having obtained further information on this matter, and seeing the necessity of the revenue being raised, he would support the clause.

Mr. Finlayson opposed the clause. He was quite ready to assist in raising the revenue, but this bill was the wrong way to go about it.

Mr. Rhodes did not see what the bill was intended for. He had been told by one hon. member of the House of Assembly that it was intended to kill the auction business. The opinion of this House was that it was a money bill, intended to raise revenue. He objected to any trammels being thrown on trade whatever. The bill would have the effect of killing the auctioneers.

The clause was carried, Messrs. Finlayson and Rhodes non-content.

The clause regarding the liquor license was amended, on motion of the hon. Attorney General, making retail liquor dealers who also dealt in other articles, give in returns of all their sales. The hon. Colonial Secretary moved that the Standing Orders be suspended, and the bill read a third time. Carried, Messrs. Rhodes and Finlayson dissenting.

Mr. Rhodes asked that his protest against the passage of the bill be recorded. Mr. Finlayson made the same request. Both were granted.

JUSTICES OF THE PEACE BILL.

The clerk read a communication from the House of Assembly, asking a conference on the bill granting jurisdiction to Justices of the Peace in civil cases. The Council granted the conference, fixing the date for Friday afternoon at two o'clock.

MEDICAL BILL.

This bill came up from the conference for the consideration of the Council.

The Colonial Secretary said the feeling of the Council had at first unquestionably been to throw out the bill altogether, and the amendments had been made to meet the views of the House to some extent. The idea of the Council was to make the bill simply a registration, as in England.

Hon. Attorney General said he believed the amendments expressed the views of the Council, and also of the community, who he believed were supremely indifferent in the matter, if indeed they did not wish to have the bill thrown out.

Mr. Rhodes said he had presented a petition, numerously signed, against the whole bill.

Mr. Finlayson was in favor of free trade in everything. (Hear, hear!)

The Council unanimously insisted on their amendments.

MERCANTILE LAW ACT.

The Council took this Act into consideration, as reported from the conference

The Attorney General looked on section 10 of the bill passed by the House as shielding iniquity.

Mr. Rhodes said it would make this colony a refuge for swindlers.

The Colonial Secretary—An Alastia!

The Council insisted on their amendments, with some verbal alterations.

The amendments to section 11 were also insisted on, the Attorney General stating that he could not word the amendment in any other way. The hon. House must surely appreciate the tenor of the Council's alterations. The only amendment yielded was to section 8, with the addition of the words " of action " to the clause.

The Council then adjourned till to-morrow (Friday) at 3, p. m.

THE LIEN LAW AND THE HOMESTEAD BILL.

TO THE EDITOR OF THE BRITISH COLONIST,
—SIR,—Will you allow me to say a few words on the late Lien Law bill and the present Homestead bill. As to the first, any one acquainted with its practical working in America must unhesitatingly pronounce it to be an unmitigated evil, except only to such persons as are unmitigated evils themselves, viz., land sharks. The unfortunate owner of a building in course of erection must exercise the most constant supervision over the works and see that the workmen employed have received their wages and even then in the case of a dishonest contractor, he may find that before he can obtain possession he will have to pay twice and thrice the value of the building. In order to evict the workmen who may take possession under the law, fictitious leases are resorted to, and I am told that it is no uncommon thing in the States to see blocks of fine buildings wholly tenanted by families of workmen and converted into rookeries—the owner having retired before a too expensive struggle, after having paid perhaps the last dollar rightly due. I am glad therefore that the Legislative Council have not given way to popular clamor and popular ignorance.

With respect to the Homestead law, I am not so sure upon reflection that it may not be so amended as to become beneficial to a young colony like our own. As it stands at present it is nothing more nor less than a legalized method of robbing creditors to the extent of $5000. I would propose that the Homestead (if no greater value than $2500) be non-revocable by the owner under the act to a trustee for the benefit of his family—that such conveyance be *registered* within 7 days after execution together with an affidavit of the *solvency* of the owner. A false affidavit would invalidate the conveyance; but no debt contracted after registration of a *bona fide* conveyance should affect the property. In case of a sale or mortgage the concurrence of the trustee would be necessary, and if he refuse to concur without good reason he would be compelled by the court.

The result will be that whereas by the present law a solvent person can only secure property to his family by settling it on them *before marriage*, he will now be enabled to effect the same object after marriage. Such a change in the law may be expedient in a new colony, but it is in the way only that I can understand such a change to be at the same time beneficial to the family of an honest debtor and of advantage to the colony by retaining in it the labor of the honest settler.

I am, Sir, &c.,
E. G. A.

COWICHAN GRIEVANCES.

COWICHAN, June 4th, 1865.

TO THE EDITOR OF THE BRITISH COLONIST,
—SIR,—Permit me through the medium of your valuable paper to state a few facts to show how we are getting along with the Indians in our settlement. They have just finished planting their potatoes, partly on Indian reserve and partly on the land of a neighbor of mine, which they have not fenced in properly, and the consequence has been that his pigs have got in and destroyed the seed. The Indians on hearing it kicked up a great row, they had a large meeting and much loud *wa-wa*, one of their speakers declaring he would shoot all the pigs in the country, and firing off his musket at the same time to show how *mesachie* he was. Now anyone who knows what they have done before will not doubt but that the threat will be carried into effect; they have already killed two pigs belonging to the person I have just named, and we all know that they killed four head of cattle belonging to white men last year in this neighborhood, and no remedy has been adopted by the authorities in Victoria to put a stop to it. It is particularly hard for a settler to have Indians cultivating his ground, and because they are too lazy to fence it and his hogs get in they are to shoot them. In fact one of the Indians has not fenced at all, only strewed a little brush over his patch; the other has fenced one side and trusted to an old log on the other. I think if some one in authority had been sent to see that the Indians made proper fences all this trouble would have been avoided. It is but fair to state, at the same time, that some of the Indians have made very good fences.

It is, I think, pretty well known how we suffer from their thieving propensities. They plunder our houses so that it is not safe to leave them for a single day. They also plunder our crops while growing, and in winter break into our potatoe pits. Last year they robbed nearly every house in our district. I have not the authority of any of the sufferers to mention their names, but I will take it upon me to name one—a particularly hard case — that of Mr. Matthew Knott, who had got in his provisions for the winter, and was out working his station labor; six or seven miles from home, and when he returned everything was gone. They took all his provisions, and only left nothing but his old blankets. I suppose they considered these not worth taking. This was the third or fourth time his house had been robbed; and is it surprising then that settlers should be unwilling to leave their places to work statute labor!

It may be asked why not bring the offenders to justice, as they are frequently caught at it? The reason is simply attributable to the difficulties attending it. In the first place, another Indian and his canoe would have to be engaged to take them to Victoria, which would at least be very tedious, besides involving the necessity of leaving house, stock and crops for at least a week, and I should like to know in what condition he would find them on his return. Now I write this in order that the people in Victoria may know how we are situated, more than that any means will be taken to protect us from these depredations by the freebooters. They seem perfectly indifferent whether we get on or not; perhaps they think we are not making sufficient progress; we are ourselves not very well pleased with the progress we have made, though it is only fair to add that our chance has been a poor one, as wherever an acre of land is found of any use it is either reserved or bought up by speculators and no doubt will be sold at a good profit after we have opened up the country for them.

It is time we knew whether we are going to be protected from these savages or not, if not it is about time we were clearing out.

Yours,
AN OLD SETTLER.

BOOTH THE MURDERER.

The following particulars of the death and burial of John Wilkes Booth, the assassin, are given by the New York correspondent of the *S. F. Bulletin*:

MYSTERIOUS DISPOSITION OF THE BODY.

It is regretted of course that the assassin Booth was not taken alive, so that he might have been publicly executed, and have thus afforded opportunity for a more marked expression of public detestation for his crime. So speedy a termination of the villain's tortures in the flesh is felt to be far short of the retribution due in such a case. But from indications on the part of the populace in the neighborhood of the Capitol, which were noted at the time of the reception of the news of Booth's capture, it is possible that the taking of Booth's life by the hand of Corbett was a fortunate circumstance, all things considered. Now that the excitement consequent on the capture has in a great degree subsided, it is easy to see that the bringing of Booth alive into the Washington Navy Yard would have been the signal for a boiling over of popular indignation. Nothing could have withstood the fury of the excited thousands congregated at Washington.

PAINFUL DEATH.

Although Booth did not survive his death wound many hours, he lived longer than he could have desired. His doubtless courted a speedy death as a relief from great bodily pain. The surgeons who held the autopsy assert that Booth must have endured untold anguish of body, as well as of mind, from the nature of the fracture of the leg—the small bone having cut its way through the flesh, and protruded. Mortification of the leg had also commenced, and it was the opinion of the surgeon that he could not have lived many days more in any event. This may account in part for the horrid expression of countenance and the general repulsiveness of the corpse.

It was found that the ball had passed just along the base of the brain, without injury to the brain, but by striking the spinal column had occasioned immediate paralysis. His death must have been horrible, indeed, the brain being active and consciousness complete up to the very moment of the dissolution.

CONSIGNED TO AN UNKNOWN GRAVE.

A photographic view was taken of the body of the murderer. The remains were then sewed up in an ordinary army blanket. Many persons desired to look upon the body, but they could not be gratified. It is stated that the relatives of the deceased made application to Government for the corpse. This is mere supposition, perhaps, founded on the circumstance of the presence in Washington of Edwin Booth and other relatives of the deceased. Be that as it may, however, the application was not granted, and it is stated that the grave of the doubly detested assassin is intended to be forever nameless. If, indeed, the body is accorded sepulchre in the ordinary manner, the place of interment is designed never to be known publicly. On Thursday last, the Secretary of War, without instructions of any kind, committed to Col. L. C. Baker, of the War Police service, the corpse at Booth. Baker, upon being subsequently questioned as to what disposition he had made of the body, replied: "That is known to only one man living besides myself. It is gone. I will not tell where. The only man who knows is sworn to silence." One rumor is, that on the same night a small row boat received the remains; that two men in the boat—one of whom was supposed to be the detective Baker himself—rowed away in the darkness. That is all that is known as to the mortal remains of J. Wilkes Booth. His spirit has gone to a terrible and inscrutable judgment, his body is denied Christian sepulture, and his fame is infamous. *Sic Semper Tradituis.*

THE HOUSE OF ASSEMBLY did not meet yesterday, a quorum of members not being present.

NANAIMO.

The following lines were composed and sung by Mr. Wm. Semple, at the concert held in the new Hall, on the evening of the Queen's Birthday:

What changes do we live to see,
As through the world we wander;
What wondrous feats have been performed
In Science, Art and grandeur.
If we but look a short time back,
In sixty-two or later,
And see Nanaimo in her youth,
Just in a state of nature.

CHORUS.

But now so throng all push along,
And business quickly moving;
Our "diamonds" sold bring plenty gold,
Nanaimo's fast improving.

The forest wild has ceased to be,
The howling wolves are vanished,
And bears and panthers are no more,
The savage native's banished.
Where once there only heathens dwelt,
Now church or chapel graces;
All brush and timber swept away,
And town-lots in their places.

Now houses grand majestic stand,
O'erlooking the silv'ry ocean;
With stores, hotels and bonnet shops
All bustle and commotion.
Then wagons capped with glossy black
Come hurling down an incline,
And Harry Cooper at their heels
With his whistling little engine.

Great bridges built, and wharves complete
With latest of improvements;
And things around all go ahead
Upon the quickest movement.
No sooner is a ship in port—
The time her sails are righting—
Than Sabiston comes with all his force,
And she's off again like lightning.

We well may boast—be proud to see—
Our little town progressing;
What skilful labor is displayed
By Messrs. G. & Blessing.
What enterprising men can do,
To tell we're scarcely able;
This monstrous Hall wherein we stand,
Most like the tower of Babel.

How ever many now may come
Can have accommodation,
To lecture, read, or dance and sing,
Whate'er their occupation.
Each man can take his separate place—
There need be no intrusion;
T'would hold the Northen army in
Without the least confusion.

The lofty summit grand to view,
High in the air ascending;
Its spacious form does well adorn
The houses far extending.
Then may Nanaimo always know
A Blessing and a Gordon;
They've built these walls to nearly reach
The other side of Jordan.

The buildings vast they rise so fast,
The forest will soon be undone;
'Tis possible that this may be
A Manchester or London.
The mines around they know no bound,
They'll nearly last for ever;
They say there's mountains made of coal
At Harewood and Chase river.

The good time coming's just at hand,
Hard times are disappearing;
Each man to man will brothers be,
No tyrants overbearing.
We'll get whate'er we like to ask,
With many more amendments;
Keep up your hearts, when Harewood starts,
We'll all be independent.

HOLLOWAY'S PILLS AND OINTMENT.—Lowness of Spirits, Hypochondriacism, Insanity.—These formidable diseases are usually caused by a disordered condition of one or more of the digestive organs, and, most deplorably, commence at the meridian of life. The distressing symptoms need no enumeration: they are known in some degree to the wisest and best of mankind, as well as to the weakest. Whenever the liver, stomach and kidneys are roused, the morbid feelings and ideas vanish; to effect this happy result nothing more is needed than friction over those organs with Holloway's Ointment, while the Pills are likewise taken. The change of thought is immediate, happy and lasting. Those who know these medicines have cured, confess that the influence of them upon the mind is magical.

HOLLOWAY'S PILLS.—Bilious complaints and irregularities of the system produced by depraved or over-abundant bile can always be corrected by a few doses of these inestimable Pills, which are everywhere admired for their rare combination of mildness and power, for though they conquer with ease and rapidity the most obstinate disease, they never weaken the stomach or necessitate any interruption of ordinary duties or amusements. On the contrary, they increase the appetite, strengthen the organs of digestion give increased energy and life to all the animal functions, and fit both hand and brain for fresh exertions. The sick and enfeebled can easily discover what a happy revolution these Pills have the power to effect in the human system.

HOLLOWAY'S PILLS.—A Remedy for Bilious and Liver Complaints.—Those who suffer from bile and liver complaints should try the effects of this valuable remedy. A few doses of which will make the sufferer feel elastic and vigorous, remove all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious attacks be allowed to continue without using such a preventative, more serious casualties may arise, and the sufferer be consigned to a bed of sickness. Holloway's Pills are an extraordinary remedy, acting immediately in the removal of acidity of the stomach, indigestion, debility, and nausea preparing the food thoroughly for assimilation rendering such urinary powers perfect in its function, and stimulating the kidneys

HOLLOWAY'S OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Stictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. To some of these insidious remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved from untimely death. In certain complications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human sex is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

HOLLOWAY'S OINTMENT.—In bad legs, ulcers, scrofulous sores, and glandular swellings, this ointment operates very gently, but very surely, and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous Unguent have never been disputed by anyone who has given them a fair trial. It contains not a particle of any substance of a noxious nature, nor is there a case on record in which it has done the slightest harm; while there are authentic reports of innumerable cures effected by it in all countries. It is as mild in its action as it is powerful and beneficial in its effects.

PICKLES, SAUCES, JAMS, &C
(FREE FROM ADULTERATION,)
MANUFACTURED BY
CROSSE & BLACKWELL,
PURVEYORS TO THE QUEEN,
SOHO SQUARE, LONDON.
CROSSE & BLACKWELL'S
Renowned first-class Manufactures are obtainable from every respectable Provision Dealer in the World.
Purchasers desirous of being supplied with C. & B.'s goods, which are all of the best quality, and of a thoroughly wholesome character, should be careful to see that inferior articles are not substituted. Their genuine preparations bear their names and address upon the labels.
Their Pickles are all prepared in Pure Malt Vinegar, bottled in Oak Vats, by means of PLATINUM METAL COILS, thus avoiding all possibility of contact with COPPER, or any other injurious metal; and C. & B.'s are precisely similar in quality to those supp. ed by them for use at
HER MAJESTY'S TABLE.
Oxford Sausages, Patent Preserved Hams, Cheese and Bacon, Yorkshire Game and Pork Pates, Fresh Oysters in Tins, Salmon Cutlets, Whitebait, Fillets of Soles, Bologna Sausages, Herrings a la Sardines, Soups, Meats, and Vegetables in Tins, Fruits in Syrup, also in Noyeau and Brandy, Crystallized Fruits, all of which, as well as many articles too numerous to include in an advertisement, they can strongly recommend. Their Salad Oil is the finest imported.
C. & B. are AGENTS for LEA & PERRINS' CELEBRATED WORCESTERSHIRE SAUCE. Caution: Sir Robert Peel's Sauce M. Soyer's Sauces, British and Aromatic Mustard, Payne's Royal Osborne Sauce, Captain White's Oriental Pickle, Curry Powder and Paste, and Mullingtawny Paste, Grimwade's Desiccated Milk, and for Mason's French Chocolate. oow
